

RESUME

1. **F. I. O. Kelisbekov Adilbek Kazbekovich**
2. **Basic specification:** 6M090100 - "Organization of transshipment, movement and operation of transport", 5B070200 - "automation and management"
3. **Teaching staff, teaching staff:** doctor PhD, I. O. ass. professor.
4. **Work Experience:** 11 years.
5. **Basic courses:** "Automated transport systems", "Energy resources of transport equipment".
6. **Sweden on improvement of qualification:** the certificate is obtained
 - "Activity on additional professional education" under the program "modern and promising designs of the main construction of the road to Moscow State University", Reg.nom. No. 027M/291-12, 2012, Moscow, Russia;
 - Certificate of passage of 72 Chapel courses of the educational center "KAZPROFI", such as: " relay protection and automation", " power supply of mining and metallurgical enterprises", " modeling on EWB", " nonlinear automatic control systems", 2021 G.
7. **Scientific interests:** cyclic-potochnaya technology, programmable logical controllers, automated electric drive.
8. **Scientific achievements:** during the period from 2010 to 2023, more than 30 statutes and theses were published at the conference (including 6 statutes in journals included in the SCOPUS database), 1 academic and methodological report, 3 patents of the Republic of Kazakhstan were received. In 2020, on completion of training in doctoral studies on specialty 6d071800 - "Elektroenergetics" prepared and protected dissertation work on the topic "research and assembly of interconnected multi-motor, frequency-adjustable electric drive of a folding conveyor, taking into account elastic connections".
